Soft skills

Collaboration   Adaptability

Problem Solving   Creativity

Empathy   Assertiveness

Positive

Hard skills

`</>` MongoDB, ExpressJS, ReactJS, NodeJS, REST, RESTful API, Web API, Redux

HTML, CSS/SCSS, Javascript/Typescript

Tailwind, Bootstrap, Styled-Components

VsCode, GitHub, Postman, Mockoon

Zoom, Slack, Microsoft Teams

Honours

2nd place in the "Young Entrepreneurs" Contest
29/05/2017

Languages

English   ☑☑☑☑☐
Portuguese   ☑☑☑☑☐

Education

WEB Development Graduate   09/09/2021 – 07/05/2022
Ironhack

Full-stack JavaScript Web Development course consisting of +400 hours including pre-work and career development. This achievement includes the competent acquisition of industry driven skills to be able to use HTML5, CSS3 and ReactJS to develop Responsive Web Apps and create database-driven applications using ExpressJS, implementing RESTful APIs, and successfully managing data in Mongo database.

Project Experience

Frontend Project   16/11/2022
https://tesla-clone-gnestrelado.netlify.app/

Tesla Website Clone
- Developed a clean frontend clone of the Tesla Website using ReactJS
- Learn about Styled-Components in react
- Learned more about Redux
- Learned multiple threading, concurrency, design patterns, and their impacts on application concurrency.

Fullstack Project   04/2022 - 05/2022
https://nani-app.netlify.app/

Ironhack Course Final Project
-Coordinated with Project Partner to identify the project requirement, creating documents that streamlined development activities, resulting in a clean and agile development experience.
-Gathered and validated requirements as a part of a collaboration for a responsive web application.
-MongoDB Cluster Setup and configuration.
-Created a clean frontend using ReactJS and leveraging component best practices to create reusable loosely coupled features ready for production.
-Closely collaborated with Project partner to quickly address issues.
-Created 10+ components extending the elements and modules of core NodeJS, obtaining outstanding results.
-Acquired knowledge of how to deploy backend and frontend (Heroku and Netlify, respectively).

    Technologies used: Javascript, MongoDB, ExpressJS, ReactJS, NodeJS

ExpressJS Project   12/2021 - 01/2022

Ironhack first Project
-Developed a mini web game with HTML, Javascript.
-Acquired knowledge of backend development ,endpoint creation and logic
